

# TECHNOLOGY IN PRACTICE

## CAPABILITY STATEMENT

**Technology in Practice** is an aerospace engineer founded company that provides innovative solutions to the defense and private sectors. TIP specializes in designing, fabricating and testing. TIP's goal is to provide innovative, quality, precision components utilizing our attention to detail and extensive supplier contacts.

## SERVICES AND CAPABILITIES

- Mechanical Engineering
- Process Piping
- Test System Design
- Fabrication
- Hardware
- Test Methodology

## EXPERTISE

- Fluid Testing
- Environmental Testing
- Mechanical System Design

## KEY INDUSTRIES

- Aerospace
- DTRA
- Petro-chemical Processing
- Power Plant Process Piping
- Nuclear Plant Process Piping
- Test Facility Infrastructure

## CONTACT

**Ian Furlong**  
**(562) 480-6406**  
**ian.furlong@tip.systems**  
**DUNS Number: 078891572**  
**CAGE Code: 6YYM5**  
**EIN: 455197533**

## INDUSTRY PARTNERS

- Riverside Machine Works
- National Technical Systems

## FACILITIES

- 40' X 75' X 22'T Fabrication Facility
- 50' x 75' x 12'T Covered Outdoor Test Area
- 4 Acres Undeveloped Land

## MACHINES/EQUIPMENT

- 24" X 60" Mori Seiki Engine Lathe
- Hardinge HLV High-Speed Precision Lathe
- 9" x 42" Bridgeport Mill
- 48" Rotab
- Miller Dynasty 280DX
- Millermatic 255 MIG
- Hyster Forklift (16,000 lbs @48")
- John Deere 210LE Loader
